## EXPERIENCE

---

Directi (now Newfold Digital), Mumbai

Jul 2021 – Present

### Software Engineer II

- **Unified Hosting Platforms:** Integrated Bluehost, HostGator, and Domain.com into a common tech stack, saving \$25M with minimal disruption.
- **Microservices Development:** Transitioned key modules to Kubernetes-deployed microservices, increasing efficiency by 20%.
- **Library Development:** Reduced boilerplate code by 30% through a shared library, improving system maintainability.
- **Mentorship:** Guided 3 new joiners, enhancing their development skills and teamwork.

### Software Engineer I

- **Real-time Event Delivery:** Improved user experience by 10% through a scalable SSE protocol microservice.
- **Authentication Migration:** Seamlessly migrated authentication from Okta to Keycloak.
- **Micro Frontend Framework:** Developed a micro frontend framework with Webpack Module Federation and Jenkins for S3 deployments.
- **Feature Implementation:** Delivered features like staging environments, bulk updates, uptime monitoring, performance optimization, and broken link detection.
- **Build and Pipeline Optimization:** Achieved a 75% reduction in local development build time and a 40% decrease in Jenkins & AWS pipeline time. Implemented cost-saving measures resulting in a 30% reduction in AWS infrastructure expenses.

Endurance International Group, Mumbai

Jan 2021 – Apr 2021

### Software Developer Intern

- **Invoice System Optimization:** Enhanced user engagement by 10% by migrating invoice calculation logic to the backend, adding debounce in the frontend, and integrating a new API for seamless operation.
- **CRUD API Development:** Boosted feature adoption by 20% with robust CRUD APIs for site management.

Endurance International Group, Mumbai

Jun 2020 – Aug 2020

### Software Developer Intern

- **User Identification:** Developed a system to identify and categorize internal test users.
- **Test Case Modernization:** Improved testing processes with JUnit5 and Mockito.

## Project

---

### Insignia - Loyalty Experience

- **Microservice Solution:** Increased user engagement by 40% with a gamification and Earn & Burn strategy, addressing customer pain points.

## EDUCATION

---

Nirma University, Ahmedabad

2021

### B.Tech in Information Technology

## SKILLS & OTHERS

---

**Technical Skills:** SpringBoot, Node.js, React, MySQL, NoSQL, Docker, Kubernetes, AWS, Jenkins, Git.

**Soft Skills:** Teamwork, Adaptability, Time Management, Attention to Detail, Continuous Learning.

**Achievements:** Best Performer of the Quarter (APAC) - Q1 2022 & Q1 2023, Hackathon Winner at Org level (Oct 2021), APAC level (Apr 2021)
